## STATEMENT FROM MRC OFFICIALS

**Tuesday, June 6, 2023** — At the conclusion of round one's Triple Crown Series hybrid event in Edmonton, Alberta, we executed an evaluation of our race procedures as well as our decisions.

We acknowledge our team had gaps in our internal communication processes, as well as how we conducted our race procedures for tech inspection, staging, and starting areas. In the end, a series of unique events led to several delays in our program. As we pieced together information and questions in real time, we responded with what we believed were reasonable and explainable decisions given the information we had and the time constraints of our schedule.

Continuous learning, improvement, and progression are at the core of our commitment as we strive to improve our internal communications and our procedures moving forward. We are excited to continue working and collaborating with our partners and stakeholders within the Triple Crown Series and look forward to a successful 2023 MX Tour.
